February 09, 2010

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, California 90012

Dear Supervisors:

BOARD OF SUPERVISORS

Gloria Molina First District Mark Ridley-Thomas Second District

Zev Yaroslavsky Third District

Don Knabe Fourth District

Michael D. Antonovich Fifth District

## **ADOPTED**

BOARD OF SUPERVISORS COUNTY OF LOS ANGELES

15 FEBRUARY 9, 2010

SACHI A. HAMAI

EXECUTIVE OFFICER

APPROVAL OF AMENDMENT NUMBER 10 TO CONTRACT NUMBER H-702550
WITH THE PUBLIC HEALTH FOUNDATION ENTERPRISES, INC., FOR
THE PUBLIC HEALTH EMERGENCY PREPAREDNESS AND RESPONSE TO
BIOTERRORISM AND OTHER RELATED ISSUES
(ALL SUPERVISORIAL DISTRICTS)
(4 VOTES)

## **SUBJECT**

Request approval to execute Amendment Number 10, to Contract Number H-702550, with the Public Health Foundation, Inc., to amend the current agreement to include additional emergency funds received from the Centers for Disease Control and Prevention's Public Health Emergency Fund, to increase the maximum obligation by \$694,031, to support ongoing efforts to enhance and support the public health infrastructure which is critical to preparedness and response in combating public health emergencies and acts of bioterrorism.

## IT IS RECOMMENDED THAT YOUR BOARD:

1. Authorize and instruct the Director of the Department of Public Health (DPH), or his designee, to execute Amendment Number 10 (Exhibit I), to Contract Number H-702550, with Public Health Foundation Enterprises, Inc. (PHFE) to amend the current agreement to include emergency funds from the Centers for Disease Control and Prevention's (CDC) Public Health Emergency Response (PHER), Notice of Award (NA) 5U90TP917012-10 REVISED in the amount of \$694,031 (comprised of \$513,703 for Base Funds and \$180,328 for Information Technology [IT] Project Funds), effective March 1, 2010 through August 9, 2010, at no net County cost, 100 percent offset by grant funding; to increase the maximum obligation from \$28,322,647 to \$29,016,678 to enhance, strengthen and

The Honorable Board of Supervisors 2/9/2010 Page 2

support ongoing DPH bioterrorism and public health emergency preparedness and response efforts.

- 2. Delegate authority to the Director of DPH, or his designee, to execute future amendments to Agreement No. H-702550 with PHFE that permit the increase and/or decrease of funding by an amount that does not exceed 30 percent of the maximum obligation for each applicable contract year covering the periods of August 10, 2009 through August 9, 2010 and August 10, 2010 through August 9, 2011, 100 percent offset by CDC and/or Department of Homeland Security Urban Area Security (UASI) grant, and/or State funding, subject to the review and approval of County Counsel and the Chief Executive Office (CEO) and notification of your Board.
- 3. Approve the attached Appropriation Adjustment (Exhibit II) in the amount of \$1,152,000 for Fiscal Year (FY) 2009-10 to accept carryover funding from the CDC included in NA 5U90TP917012-10 REVISED for DPH's Emergency Preparedness and Response Program, Services and Supplies (S&S) appropriation by \$1,142,000 and Fixed Assets appropriation by \$10,000, and is fully offset by funding from CDC.

## PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of this proposed Board action is necessary since the proposed contract amendment exceeds the amount of increase as approved by your Board on September 29, 2009.

Board approval of the recommended actions will allow DPH to amend the existing contract with PHFE to add emergency funding and increase the scope of work to continue to recruit, train and retain qualified staff and subcontractors that perform specialized and vital work needed to prepare for and respond to public health emergencies. Specifically, the funds will: 1) support services including community and school liaison activities, planning for special needs populations, coordination of Health Alert Network activities, and specialized laboratory and epidemiology work; and 2) support the provision of project management, business analysis, development, and quality assurance services in support of various preparedness and response IT projects and activities including the Health Alert Network, Public Health Directory and Staff Registry System. Services range from management of projects from concept to delivery, analysis of business requirements and process mapping, software architecture and design support, and software testing services.

Approval of the Appropriation Adjustment will allow DPH to increase its Fiscal Year (FY) 2009-10 Services and Supplies and Fixed Assets appropriation as a result of available carryover funding from the CDC.

## <u>Implementation of Strategic Plan Goals</u>

These actions support Goal 4, Health and Mental Health, and Goal 5, Public Safety, of the County Strategic Plan by implementing steps to increase planning capabilities for prevention and response to pandemic influenza and other public health threats, thus protecting the health and safety of residents in Los Angeles County.

## FISCAL IMPACT/FINANCING

Approval of this proposed Board action will allow DPH to amend Contract Number H-702550 with PHFE to include \$694,031 (comprised of \$513,703 for Base and \$180,328 for IT Projects) for the term of March 1, 2010 through August 9, 2010, 100 percent offset by CDC NA 5U90TP917012-10

The Honorable Board of Supervisors 2/9/2010 Page 3

REVISED. This action increases the maximum obligation from \$28,322,647 to \$29,016,678, and amends the scope of work to increase DPH's ongoing preparedness efforts in the areas of public health infrastructure which is critical to preparedness and response in combating public health emergencies and acts of bioterrorism.

Of the maximum obligation in effect, the current fiscal period maximum obligation of \$5,884,124 would increase by \$694,031 by this action. The remaining maximum obligation relates to prior grant fiscal periods that have been concluded.

CDC's NA Number 5U90TP917012-10 REVISED, currently being accepted under your Board's delegated authority granted on July 29, 2008, provides for \$1,423,657 in carryover. An Appropriation Adjustment in the amount of \$1,152,000 is needed for Fiscal Year (FY) 2009-10; the remaining carryover balance of \$271,657 will be used for supplies, travel, and other contractual activities in FY 2010-11. The carryover amount includes \$694,031 for PHFE Amendment No. 10 and the remaining balance will be applied to virtual server infrastructure upgrade, supplies, travel, other contractual activities, and a bio-safety cabinet.

Appropriation for future FYs will be requested as necessary.

## FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On November 21, 2006, your Board delegated authority to DPH to execute an Agreement with PHFE, and authorized the execution of any amendments to increase or decrease funding up to 25 percent of the contractual maximum obligation. Under this authority, on December 29, 2006, Agreement Number H-702550 with PHFE was executed for the term of December 29, 2006, through December 31, 2007; at a maximum contractual obligation of \$7,878,715; 100 percent funded by CDC and CDPH grant funding.

On subsequent occasions your Board has approved additional contractual actions to continue the services provided by PHFE to the DPH for Public Health Preparedness and Response to Bioterrorism, as reflected in Exhibit III.

## **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

Approval of this action will allow DPH to execute Amendment Number 10 to Contract Number H-702550 with PHFE to include funds that will support ongoing efforts to enhance and support DPH's public health infrastructure which is critical to preparedness and response in combating public health emergencies and acts of bioterrorism.

## **CONCLUSION**

When approved, DPH requires three signed copies of your Board's action

The Honorable Board of Supervisors 2/9/2010 Page 4

Respectfully submitted,

JONATHAN E. FIELDING, M.D., M.P.H.

Director and Health Officer

## PERSONNEL AND OPERATIONAL SERVICES AGREEMENT

## **AMENDMENT NUMBER 10**

	THIS AMENDMENT is ma	ade and entered into this	day
of _		, 2010;	
	by and between	COUNTY OF LOS ANGELES (hereafte "County"),	r
	and	PUBLIC HEALTH FOUNDATION ENTERPRISE, INC., (hereafter "Contractor")	

WHEREAS, reference is made to that certain document entitled "PERSONNEL AND OPERATIONAL SERVICES AGREEMENT", dated December 29, 2006, and further identified as County Contract Number H-702550 between County and Contractor; and any amendments thereto (all hereafter "Agreement"); and

WHEREAS, County has been allocated funds from the federal Centers for Disease Control and Prevention ("CDC"), Catalog of Federal Domestic Assistance Number 93.069, Public Health Emergency Response ("PHER") for the Public Health Emergency Preparedness and Response for Bioterrorism project, of which a portion of these funds has been designated for Agreement; and

1

WHEREAS, said Agreement provides that changes may be made in the form of a written amendment which is formally approved and executed by the parties.

NOW, THEREFORE, the parties hereby agree as follows:

- 1. The Amendment shall be effective on March 1, 2010 through August 9, 2010.
- 2. Effective date of this Amendment, Attachments "A-7" and "K-5" (Statement of Work) and Schedules "A-7" and "K-5" (Contract Budget Summary) shall be added to Agreement as attached hereto and incorporated herein by reference.
  - 3. Paragraph 3, <u>DESCRIPTION OF SERVICES</u>, shall be revised to read:
    - "3. DESCRIPTION OF SERVICES:
    - A. Contractor shall provide services in the form as described in the body of this Agreement and its current attachments and schedules.
    - B. Contractor acknowledges that the quality of service(s) provided under this Agreement shall be at least equivalent to that which Contractor provides to all other clients it serves."
- 4. Effective upon the date of execution the current maximum contractual obligation of Twenty-Eight Million Three Hundred Twenty-Two Thousand Six Hundred Forty-Seven Dollars (\$28,322,647) is increased by an additional Six Hundred Ninety-Four Thousand, Thirty-One Dollars (\$694,031) for a total maximum contractual obligation of Twenty-Nine Million, Sixteen Thousand, Six Hundred Seventy-Eight Dollars (\$29,016,678). This additional emergency funding is for the time period effective March 1, 2010 through August 9, 2010.

5. Except for the changes set forth hereinabove, Agreement shall not be changed in any other respect by this Amendment.

IN WITNESS WHEREOF, the Board of Supervisors of the County of Los Angeles has caused this Amendment to be subscribed by its Director of Public Health and

/

Contractor has caused this Amendment to be subscribed in its behalf by its duly authorized officer, the day, month, and year first above written.

Health Alert Network, and related systems	software releases, opecifically, triese positions will support software string, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, triese positions will support software string, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, triese positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Bublic Hoofth Director, Hoofth Alort Notices and applications and the Bublic Hoofth Director, Hoofth Alort Notices and applications are supported by the Bublic Hoofth Director.	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Bublic Hoolst Disorder, Hoolst Motival and Indianal Alex Motivals and Indianal Alexandrian	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Bublic Hoolth Directory, Hoolth Alort Notices and applications and the Bublic Hoolth Directory.	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Bublic Hotels Dispersed Hotels Mothers and all supports and user acceptance to the Bublic Hotels and the Bublic Hot	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Bublic Hotels Dispersed Hotels Mothers Mothers and all supports the Bublic Hotels and the Bub	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Display Display Display and User acceptance to a specifical support software.	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
in software releases. Specifically, these positions will support software isting, defect resolution, and user acceptance testing processes related	r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related	resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network and related systems	software releases. Specifically, these positions will support software string, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software string, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
with the development of test plans, test scripts, and defect management for software releases. Specifically, these positions will support software testing, defect resolution, and user acceptance testing processes related	in the development of test plans, test scripts, and defect management resolution test plans, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	in the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	in the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
or software releases. Specifically, these positions will support software ssting, defect resolution, and user acceptance testing processes related	th the development of test plans, test scripts, and defect management resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	in the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	n the development of test plans, test scripts, and defect management software software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	n the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
information of test plans, test scripts, and defect management or software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related to build be a position, and user acceptance testing processes related to build be a position of the processes related to build be a position of the processes and the processes related to build be a position of the processes and the processes related to build be a position of the processes and the processes related to build be a position of the processes and the processes are a position of the processes and the processes are a position of the processes are a position of the processes and the processes are a position of t	th the development of test plans, test scripts, and defect management r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	In the development of test plans, test scripts, and defect management software software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	n the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	n the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
ith the development of test plans, test scripts, and defect management or software releases. Specifically, these positions will support software sating, defect resolution, and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and user acceptance testing processes related to build bloods and the build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods are acceptance to build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods are acceptance to build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods are acceptance to build bloods and the build bloods are acceptance to build bloods a	th the development of test plans, test scripts, and defect management r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory. Health Alert Network, and related systems	In the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	h the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.	h the development of test plans, test scripts, and defect management software releases. Specifically, these positions will support software ting, defect resolution, and user acceptance testing processes related the Public Health Directory, Health Alert Network, and related systems.
ith the development of test plans, test scripts, and defect management or software releases. Specifically, these positions will support software sating, defect resolution, and user acceptance testing processes related to build bloods and the books and the books are setting to be a set of the books and the books are set of	th the development of test plans, test scripts, and defect management r software releases. Specifically, these positions will support software sting, defect resolution, and user acceptance testing processes related the Public Health Directory.
